

Rising Sun Lodge had two candidates for the mysteries of Masonry at its birth and during the century that has passed 820 names appear on its Roster. The Lodge had three candidates on the opening of Work in the second century. This may presage a like increase throughout the ensuing one hundred years. For the good of mankind, the hope is here expressed that the number may be largely exceeded. It is thought best to close the Gallery of Portraits by those of the three new craftsmen, not children of our old age, but offspring of our youthful second centenary.
